Project Title: An Exploration of BookTok

1. Project overview

The goal of my website is to inform viewers about what BookTok is and how it has had an impact on the book industry.

2. Resources

Copy is available at https://en.wikipedia.org/wiki/BookTok, as well as some photography. There are a lot of other photographs available on Google Images as well.

4. Audience

This site realistically won't be viewed by many people aside from my professors and peers, but the theoretical audience is for people interested in reading and the publishing industry. This may include older readers who are not on social media apps but who are curious about their impact on the industry.

5. Message

The focus of this website will be that BookTok and social media as a whole has had a drastic impact on the book industry and has changed the way in which people read. I want to leave viewers wondering what the future of BookTok might hold.

6. Tone

I want my tone to be friendly and informational. I think that I could highlight the fact that most books popularized on social media are not what has traditionally been considered "quality" books, so it is changing the way readers think about what it actually means to be a quality book.

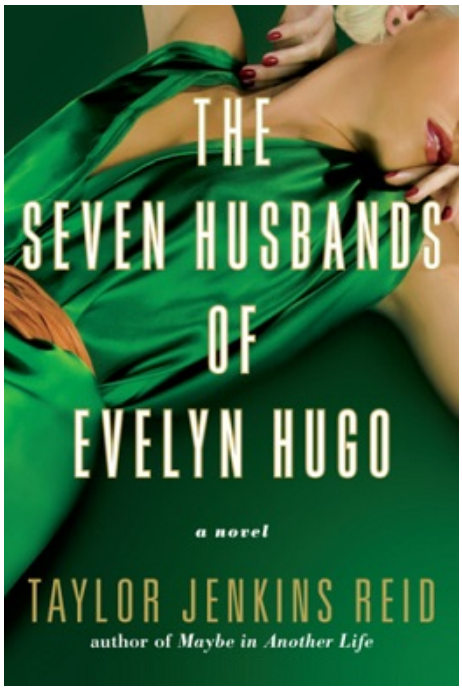

8. Visual Style

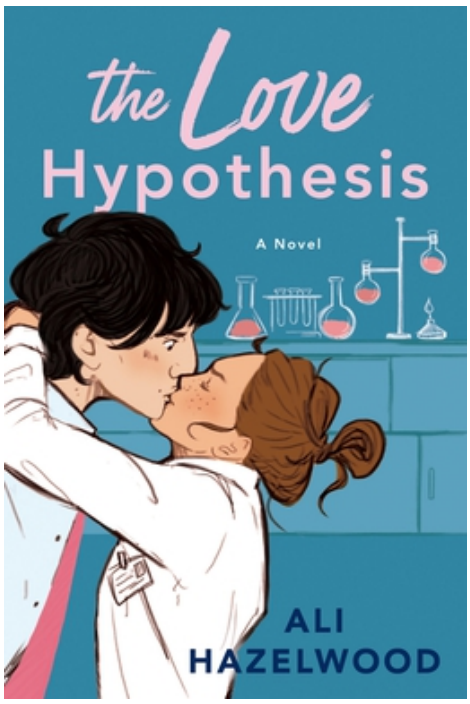

I plan to incorporate colors from the covers of BookTok books, so it will likely be very colorful. I could also include fonts inspired by book covers. It could be interesting to model some design elements on the UI of TikTok.

Here are a couple of images for inspiration:
